

STAR Balanced Growth & Income

Return Date: 2020/09/30

South African Rand

Local Manager Commentary

The South African (SA) market fell along with global markets in September, retreating towards a quarter return of +0.67% (ZAR). In a reversal of the trend seen earlier in the year, it was the domestically exposed counters that performed best, with particularly strong contributions from local banks and a double-digit return from local retailers. Those sectors were led by Capitec as its 1H20 results feedback pointed to a strong recovery in its second quarter and the addition of 800,000 new clients, and Shoprite, which was able to grow turnover by 6.4% YoY despite the pandemic.

Investment Objective & Strategy

Deliver a return equal to or greater than CPI + 4% p.a. over rolling four year periods while keeping the portfolio standard deviation below 8%. Over any rolling two year period the portfolio should always deliver a positive return. The Portfolio is a Multi-Manager solution and will comprise at least two underlying funds and ideally a maximum of six underlying funds. Fund selection will be biased towards funds that have high Sortino Ratios, low downside expectations and have been managed through significant negative equity market conditions. The portfolio will invest in funds that allow the manager to make as many of the asset allocation decisions as possible. Manager selection will balance momentum and value management styles. This portfolio is Regulation 28 compliant

Disclaimer

The Portfolio may be closed to new investments at any time in order to be managed in accordance with its mandate. Permissible deductions may include management fees, brokerage, STT, auditor's fees, bank charges and trustee fees. The portfolio only invests funds with managers regulated by the FSB. The portfolio is a long-term investment. Performance figures are produced by STAR Investment Partners (Pty) Ltd, supplied by independent service providers, and are for lump sum investments with income distributions reinvested. STAR Investment Partners (Pty) Ltd is an Authorised Financial Services Provider. The previous month's change in inflation is used as an estimate for the current month (since inflation numbers are released one month in arrears). *Returns are based on the strategic underlying weightings of the funds and will not exactly reflect individual client returns. All returns are net of fund management fees, but exclude advice and administration fees. Prior to portfolio launch date, the performance is pro-forma using the actual underlying fund performances and is net of all fees and expenses
