STAR Balanced High Growth

Return Date: 2023/02/28

South African Rand

Local Manager Commentary

After starting of the year on a strong front foot, February saw some retracement in the local equity market, with the JSE FTSE/ALSI follow global peers lower, to end the month down (2.19%). South African inflation showed some signs of abating, with annual inflation declining to 6 However, while overall inflation eased, food and non-alcoholic beverages inflation continued to accelerate. The annualised rate for these cated climbed to 13.40%, the highest reading since 2009. The Rand weakened further against the Dollar, last month depreciating (5.25%) to en month at R18.42/\$, the weakest level since November 2022.

Investment Objective & Strategy

Deliver a return equal to or greater than CPI + 6% p.a. over rolling five year periods with a Standard Deviation of less than 12%. Over any three year period the portfolio should always deliver a positive return. The Portfolio is a Multi-Manager solution and will comprise at leas underlying funds and ideally a maximum of six underlying funds. Fund selection will be biased towards funds that have high Sortino Ratios downside expectations and have been managed through significant negative equity market conditions. The portfolio will target funds manager will favor growth assets such as equity and property in positive economic conditions and interest and income bearing assets in negative m conditions. Manager selection will balance momentum and value management styles. This portfolio is Regulation 28 compliant.
