

# STAR Global Moderate Portfolio

Return Date: 2023/04/30

US Dollar

## Global Manager Commentary

After another volatile month for global markets where major stock indices struggled to find direction due to uncertainties surrounding global economies, the MSCI ACWI ended the month up 1.3%. Emerging markets underperformed against their developed counterparts, with the MSCI Emerging Markets index losing (1.3%) as compared to a gain of 1.6% for the MSCI World index. Annual inflation in the US fell to 4.9% down from 5% the previous month, with core inflation picking up from 5.5% to 5.6% in April. The US GDP showed slower growth, expanding at an annualized rate of 1.1% in the first quarter, falling short of the estimated 2%.

## Investment Objective & Strategy

Deliver a return equal to or greater than USD LIBOR + 2% over rolling five year periods. Over any rolling three year period the portfolio should always deliver a positive return. Portfolio returns will be generated through interest income, dividend income and capital growth. The portfolio benchmark is the median return of the EAA Fund USD Moderate Allocation category. The portfolio is a Multi-Manager solution and will comprise at least two underlying funds and ideally a maximum of six underlying funds. Fund selection will be biased towards funds that have high Sortino Ratios, low downside expectations and have been managed through significant negative equity market conditions. Where possible underlying funds will be given as many of the underlying asset allocation decisions as possible.

## Disclaimer

The Portfolio may be closed to new investments at any time in order to be managed in accordance with its mandate. Permissible deductions may include management fees, brokerage, STT, auditor's fees, bank charges and trustee fees. The portfolio only invests funds with managers regulated by the FSB. The portfolio is a long-term investment. Performance figures are produced by STAR Investment Partners (Pty) Ltd, supplied by independent service providers, and are for lump sum investments with income distributions reinvested. STAR Investment Partners (Pty) Ltd is an Authorised Financial Services Provider. The previous month's change in inflation is used as an estimate for the current month (since inflation numbers are released one month in arrears). \*Returns are based on the strategic underlying weightings of the funds and will not exactly reflect individual client returns. All returns are net of fund management fees, but exclude advice and administration fees. Prior to portfolio launch date, the performance is pro-forma using the actual underlying fund performances and is net of all fees and expenses
